SLAYERS FLEE

Police Believe Murder Work of Black Hand Society.

CANTON, Mar. 29.—Police here were today making a search for Michael Bidacco. 35, believed to be one of a pair of Italians, who last night murdered Pelino Tibero, 28, at a rooming house. Police believe the slaying work of the Black Hand organization.

Threaten Second Man. Tibero was sitting in a room alone when two men entered, asked for him and when he answered, one of the pair plunged a stiletto into his heart before Tibero realized what was go-ing on. His death scream brought the proprietor of the house into the room, but the men had fled before he arrived and made their escape.

The slayers ran out of the house the stiletto, blood dripping from it in the hands of the assassin. They en-countered Pete Fonte, 18, on their way out and warned, "Don't dare tell."
They disappeared in the darkness.
Tibero, the murdered man, was an employe of the United Alloy Steel

EAST LIVERPOOL-AMERICA'S POTTERY CENTER

MONDAY, MARCH 29, 1926.

On The Basketball Map

East Liverpool, for many years recognized in the tri-state district as a supporter of all sports, in which representative baseball, basketball, football and even roller polo teams excelled, was the cynosure for West Virginians and Pennsylvanians as well as Ohioans on Saturday, when amateur cagers clashed here in the first annual basketball tournament.

Thanks to George T. Kidder, of the high school athletic staff, and O. E. Greenawalt, for several years a basketball player and always a devotee of the game, twenty-two teams from nearly as many cities in the tri-state district sought honors in the competition. Assisting the promoters were William Watkins, Harding Connell, C. E. Moore, Clarence Amos, Harvey Price, Walter Reed and George Allison.

Leaders in the amateur floor game, including "Left" Miller, all-Ohio conference forward, a distinction given him by reason of his prowess as a member of the championship Mt. Union team, and other college players, who were in the line-ups of visiting teams, were seen in action in the high school or Y. M. C. A. gymnasiums, where the clashes were staged. And pitted against such stars were youths who worked in factories, stores and offices, and their showing was much to their credit.

The tournament, which proved a treat in sport for hundreds of East Liverpool fans who crowded the auditoriums during the morning, afternoon and evening, more than fulfilled the expectations of its sponsors, for their aim was to stimulate interest in one of the cleanest athletic diversions.

It was a successful affair, as it deserved to be, and did much to put East Liverpool on the basketball map.

CHECKS MALADY

Asserts Simple Blood Test Will Detect Its Inception.

LIVERPOOL, England, March 29 .-The claim that a means has been found of detecting the inception of cancer by a simple blood test is made by Dr. H. McCormick Mitchell, senior medical officer of the cancer hospital

Although English medical men are not entirely convinced of Dr. Mitchell's theory, he is enthusiastic and declares that his finding is "the dawn of a great discovery which will bring consolation and comfort to many suffering hearts."

"By means of a cleverly designed apparatus," Dr. Mitchell said, "this scientist can now examine a few drops of a patient's blood and detect cancer in its earlier stages in any part of the

"Further than this, by a similar blood test six months after an operation, the scientist is able to discover whether the operation has been successful in removing all traces of cancer from the organs affected.

'MAZIE,' SCREEN HIT, IS BOOKED

Alberta Vaughn in Title Role at Ceramic.

Admitted by critics to be the most unusual and amusing character in contemporary literature, "Mazie," that amazing and delightful personality comes to the Ceramic theatre for a three-day run in "The Adventures of Mazie," with little Alberta Vaughn in the title role. With the inimitable Al Cooke and Kit Guard playing the "fattest" parts of their careers, and Larry Kent, F. B. O.'s new find, taking the juvenile lead opposite Alberta, the series is heralded as greater even than "The Pacemakers," "The Go-Getters," and "The Telephone Girl." Nell Martin who wrote the original stories which ran serially in Top Notch magazine, has given the screen some really novel material, replete with humor and fairly dripping with unusual situations. Doris Anderson adapted the stories into scenario form, and has many brilliant touches. The difficulties of Mazie in holding her job as stenographer for the struggling young law yer she loves, the tenacity of her purpose and the irrepressible quality which repeatedly prevents her from being fired form a background of screamingly funny incidents which are not devoid of their share of pathos. An all-star cast supports the four prin-

Pemicious Anemia Needs a Treatment to Hit Cause

By ROYAL S. COPELAND, M. D., United States Senator from New York. Former Commissioner of Health, New York City.

ETTERS come to me asking about anemia and its various types. They ask about primary anemia, the secondary form and particularly about pernicious anemia

By anemia we mean any condition where there is a defect in the quality or a considerable reduction in the total quantity of the blood. For instance, serious bleeding might cause anemia. This type is called "secondary anemia."

Secondary anemia may follow malarial poisoning, blood poisoning, and some other infections. DR. COPELAND Mercury and other chemicals may produce an anemia of the secondary

lia. pallor or greenish complexion of the skin develop.

A more serious ailment is known as pernicious anemia. This is a recurring and grave disease.

Like primary anemia this ailment is scure in origin. The machinery for blood-making breaks down and the progressive symptoms appear.

Pernicious anemia occurs in mentwice as frequently as in women. It is more common in men under 35.

When found in women it is apt to be associated with pregnancy. Shock, severe emotional experiences and similar mental states are other causative factors.

In every case of anemia, particularly of the pernicious type, a careful examination shou be made to determine whether or not there is a focus of pus infe tion somew'ere in the body. Bad teeth, diseased tonsils and particularly intestinal infection are capable of producing symptoms very like pernicious nemize.

Increasing pallor, leanon-colored complexion, weakness of the muscles, vomiting and diarrhea are among the symptoms. They may clear up after a few weeks. The symptoms recur, coming and going every little while.

Like all other chronic disease, the symptoms of the common colored complexion are capable of producing symptoms very like pernicious nemize.

'Those Seven Girls' Head Keith Bill for Three Days.

There will be more than ordinary interest in the Keith headline attraction at the Strand theatre the first three days of this week, due to the fact that "Those Seven Girls," in a Symphony in Tone and Color, is an act owned and controlled by Michael Shea, president of the M. Shea Booking Exchange of Cleveland, a former East Liverpool resident. Shea, who has been away from East Liverpool for many years, has been very successful in the theatrical business. He has been at the head of a large booking office 13 years. "Those Seven Girls," known as a

standard Keith headliner, have been routed this season in the larger cities, but through the personal friendship of Shea and Bernard E. Smith, manager of the Strand theatre, they have been prevailed upon to include East Liverpool in their itinerary. The act, which is coming from the

East, is enroute to the Pacific coast. Their offering is a combination of band and symphony orchestra, with 224 Seventh St. solo features. Others on the program include

Sigma Nus Win From Ceramic City Squad In Tournament Final

"Lefty" Miller, Mt. Union College, All-Ohio Cager, Wins Most Valuable Player Award; Selects Fight Way to Windup Tilt; "Bo" Labor's Crew Falls in Semi-finals.

Running away with the East Liverpool Selects Saturday night on the high school court, the Sigma Nu Serpents, of Alliance, led and directed by the great "Lefty" Miller, Mt. Union college center, of All-Ohio conference fame, won the final game of the Tri-State amateur basketball tournament. the championship and a small cartload of cups and miniature gold and silver basketballs that went with the title.

In addition to this, and in the nature of a side issue to the tournament proper, the Sigma Nus achieved a victory greater to them, perhaps than the tourney conquest, when they turned back college fraternity rivals in a thrilling semi-final battle that topped off the day's games in a manner that surpassed the fondest dreams of tourney directors. When You Trade Your Car-

Ford owners are continually being approached by automobile salesmen who wish to "accept" Fords as part payment on more expensive cars.

It is perfectly logical that automobile dealers everywhere should be eager to trade with Ford owners. The Ford is the most popular automobile in the world. No other used car is so easy to sell as a used Ford - because everyone has confidence in Ford quality. And it is not expensive to re-condition, since Ford replacement parts are lowest in price.

Most automobiles carry greater discounts to dealers than the Ford - another reason why other dealers may offer the Ford owner a larger trade-in allowance.

But when you come to buy a new car, bear these facts in mind:

The amount of the trade-in allowance you can get is not the most important thing for you to consider. The big thing is the difference you have to pay. And remember, that the higher priced car will not be so easy to dispose of when you come to

If you wish to trade your Ford for a new automobile, stick to the car that you know to be dependable, useful and economical. Go to your Ford dealer!

He will give you a fair and liberal allowance for your present Ford and will gladly arrange payment of the balance to suit your convenience.

When the deal is over, and you have your new and improved Ford, you will have the satisfaction of knowing positively that you took advantage of the greatest automobile value the world has ever seen — and saved a lot of money, too.

SLAYERS FLEE

Police Believe Murder Work of Black Hand Society.

CANTON, Mar. 29 .- Police here were today making a search for Michael Bidacco, 35, believed to be one of a pair of Italians, who last night murdered Pelino Tibero, 28, at a rooming house. Police believe the slaying work of the Black Hand organization.

Threaten Second Man. Tibero was sitting in a room alone when two men entered, asked for him and when he answered, one of the pair plunged a stiletto into his heart before Tibero realized what was go-ing on. His death scream brought the proprietor of the house into the room but the men had fled before he arrived

The slayers ran out of the house, the stiletto, blood dripping from it in the hands of the assassin. They encountered Pete Fonte. 18, on their way out and warned, "Don't dare tell." They disappeared in the darkness.

On The Basketball Map

East Liverpool, for many years recognized in the tri-state district as a supporter of all sports, in which representative baseball, basketball, football and even roller polo teams excelled, was the cynosure for West Virginians and Pennsylvanians as well as Ohioans on Saturday, when amateur cagers clashed here in the first annual basketball tournament.

Thanks to George T. Kidder, of the high school athletic staff, and O. E. Greenawalt, for several years a basketball player and always a devotee of the game, twenty-two teams from nearly as many cities in the tri-state district sought honors in the competition. Assisting the promoters were William Watkins, Harding Connell, C. E. Moore, Clarence Amos, Harvey Price, Walter Reed and George Allison.

Leaders in the amateur floor game, including "Left" Miller, all-Ohio conference forward, a distinction given him by reason of his prowess as a member of the championship Mt. Union team, and other college players, who were in the line-ups of visiting teams, were seen in action in the high school or Y. M. C. A. gymnasiums, where the clashes were staged. And pitted against such stars were youths who worked in factories, stores and offices, and their showing was much to their credit.

The tournament, which proved a treat in sport for hundreds of East Liverpool fans who crowded the auditoriums during the morning, afternoon and evening, more than fulfilled the expectations of its sponsors, for their aim was to stimulate interest in one Charles Fort at Parris Island, South twice that size, and was surrounded volunteered, but begged that before of the cleanest athletic diversions.

It was a successful affair, as it deserved to be, and did much but East Liverpool on the basketball map.

The telemonies were attended by such notables as Secretary of the but the bu to put East Liverpool on the basketball map.

Budgeting The Bus

Anyone trying to budget the family bus may find something interesting in these figures, laboriously dug up by the bureau of industrial technology.

Industrial technology.

The American people are spending \$14,000,000 a year in buying 4,000,000 automobiles and operating 20,000,000. The total is itemized as follows:

Spent for new cars and accessories, \$3,750,000,000.

Depreciation, \$2,500,000,000.

Upkeep, repairs, \$2,000,000,000.

Drivers' wages, \$1,600,000,000.

Gasoline, \$1,200,000,000. Garages, \$900,000,000.

Taxes, \$625,000,000.

Tires, \$618,000,000.

Interest on investment, \$500,000,000.

Oil, \$300,000,000.

Insurance, \$300,000,000.

This lay-out should give the ultimate destroyer a pretty good South Carolina co-operated with him, old stockade should be given to that line on the normality of his own automotive expenses.

It will be a new idea to thousands of owners that gasoline is the old French fort you mentioned, is dom. one of their minor expenses.

Children And Colors

"Let the child choose the color of its own dress or suit," says an art authority. "Children suffer a great deal from being mand of the Marine Corps training dressed in colors of grown-ups' choice."

Possibly this is true. But people who see children's clothes from the dry-goods-store point of view are inclined to believe that children are allowed only too much latitude in the indulgence of bankment, with a ditch or moat, but their whims. Children demanding this and that beyond their years or the family purse are common. Children bored by much Investigation showed that there had indulgence are equally so.

Yet the art man may be right after all. Perhaps if the child this spot to Colonel Millis. but they is allowed a choice of color and form, while being given instruction in quality of textiles, a knowledge that purses have limits and the camp. that wrong choice must be paid for by wearing the garment its due time anyhow, all ends may be served.

Wearing the wrong color in childhood may be a dismal business. But youthful ennui and ignorance of values are more than that the old Charles Fort had been lo dismal. They are tragic.

Boll Weevil Beaten

A few years ago the cotton crop was doomed. The cotton belt light some two or three feet below the surface of the ground. The trees was just about persuaded that it would have to substitute some within this area had markings on other staple for its main dependence. The boll weevil was supposed to be winning.

Last year's cotton crop, according to the final government stockade. Since that time the parapet, the old moat, and the banquette have report just issued, amounted to more than 16,000,000 bales. It is been largely restored. Since the butt only a few thousand bales less than the record crop of 12 years ago.

This huge crop may not be an unmitigated blessing. Possibly were covered up, and the lines of the the growers would get a little more for their crop if the total were with chains stretched between the less. It sometimes works that way. But be that as it may, the posts big fact is that southern agriculture, helped to a reasonable extent Parris Island is undoubtedly the site by nature in the way of favorable weather, has triumphed over the of this old French fort. In the first boll weevil. That pest still persists, but his destructive power has been exaggerated. American cotton will probably outlast him.

Still, a dollar will go pretty far in the course of a day, when a member of a live community starts it in circulation right after breakfast.

It is a tale they tell under the porticos of dim-lit hotels in a street in the Roaring Forties. She was a "sleigh-rider," a half-world term for addicts of "snow," as cocaine called. One night, in the manner old the old melodrama, she heard a church choir practising in the neight to trim the flapper's bathing suit with borhood of her hotel. Life had not treated her well, and that day she lost her job in a chorus. She saw two paths — oblivion and a fight to free herself of drugs. She chose the latter and tossed her final packet of cocaine out a window. She saw it flutter into the drifting snow on a portico. All night she was tormented by her craving. Toward dawn she tried to telephone a dope seller, who was out. She crept through the hotel halls to a window leading off to the in search of a site for the fort. Asserts Simple Blood Test Will Detect Its Inception.

LIVERPOOL, England, March 29 .-The claim that a means has been found of detecting the inception of cancer by a simple blood test is made by Dr. H. McCormick Mitchell, senior medical officer of the cancer hospital

Although English medical men are not entirely convinced of Dr. Mitchell's theory, he is enthusiastic and declares that his finding is "the dawn of a great discovery which will bring consolation and comfort to many suffering hearts."

"By means of a cleverly designed apparatus," Dr. Mitchell said, "this scientist can now examine a few drops of a patient's blood and detect cancer in its earlier stages in any part of the

"Further than this, by a similar blood test six months after an operation, the scientist is able to discover whether the operation has been successful in removing all traces of cancer from the organs affected.

Alberta Vaughn in Title Role at Ceramic.

Admitted by critics to be the most unusual and amusing character in contemporary literature, "Mazie," that amazing and delightful personality comes to the Ceramic theatre for a three-day run in "The Adventures of Mazle," with little Alberta Vaughn in the title role. With the inimitable Al Cooke and Kit Guard playing the "fattest" parts of their careers, and Larry Kent, F. B. O.'s new find, taking the juvenile lead opposite Alberta, the series is heralded as greater even than "The Pacemakers," "The Go-Getters," and "The Telephone Girl." Nell Martin who wrote the original stories which ran serially in Top Notch magazine, has given the screen some really novel material, replete with humor and fairly dripping with unusual situations. Doris Anderson adapted the stories into scenario form, and has many brilliant touches. The difficulties of Mazie in holding her job as stenographer for the struggling young lawyer she loves, the tenacity of her purpose and the irrepressible quality which repeatedly prevents her from being fired form a background of screamingly funny incidents which are not devoid of their share of pathos. An all-star cast supports the four prin-

Pernicious Anemia Needs a Treatment to Hit Cause

By ROYAL S. COPELAND, M. D., United States Senator from New York. Former Commissioner of Health, New York City.

T ETTERS come to me asking about anemia and its various types. They ask about primary anemia, the secondary form and particularly about pernicious anemia

By anemia we mean any condition where there is a defect in the quality or a considerable reduction in the total quantity of the blood. For instance, serious bleeding might cause anemia. This type is called "secondary anemia."

Secondary anemia may follow malarial poisoning, blood poisoning, and some other infections. Mercury and other chemicals may produce an anemia of the secondary

'Those Seven Girls' Head Keith Bill for Three Days.

There will be more than ordinary interest in the Keith headline attraction at the Strand theatre the first three days of this week, due to the fact that "Those Seven Girls," in a Symphony in Tone and Color, is an act owned and controlled by Michael Shea, president of the M. Shea Book ing Exchange of Cleveland, a former East Liverpool resident. Shea, who has been away from East Liverpool for many years, has been very successful in the theatrical business. He has been at the head of a large booking office 13 years.
"Those Seven Girls," known as a

standard Keith headliner, have been couted this season in the larger cities, but through the personal friendship of Shea and Bernard E. Smith, manager of the Strand theatre, they have been prevailed upon to include East Liverpool in their itinerary. The act, which is coming from the East, is enroute to the Pacific coast.

Their offering is a combination of

band and symphony orchestra, with 224 Seventh St. solo features. Others on the program include Wright and Marion in a comedy of-

fering, "Food for the Squirrels." They

Sigma Nus Win From Ceramic City Squad In Tournament Final

"Lefty" Miller, Mt. Union College, All-Ohio Cager, Wins Most Valuable Player Award; Selects Fight Way to Windup Tilt; "Bo" Labor's Crew Falls in Semi-finals.

Running away with the East Liverpool Selects Saturday night on the high school court, the Sigma Nu Serpents, of Alliance, led and directed by the great "Lefty" Miller, Mt. Union college center, of All-Ohio conference fame, won the final game of the Tri-State amateur basketball tournament. the championship and a small cartload of cups and miniature gold and silver basketballs that went with the title.

In addition to this, and in the nature of a side issue to the tournament proper, the Sigma Nus achieved a victory greater to them, perhaps than the tourney conquest, when they turned back college fraternity rivals in a thrilling semi-final battle that topped off the day's games in a manner that surpassed the fondest dreams of tourney directors.

INSIDE GOLF

"Golf's most successful teacher," says "Chick" Evans.

My experience with the average siness-man golfer has been that whenever I rolled this strange bug over in his golf

invariably to be cluttered up with a sense of the golf swing that - and was minus much in need of my "straight line" for his hips. This "straight line" principle has

been a wonder-worker for 90 per ent of all the golfers I have been able to explain it for. Apparently the news of the "straight line" is getting abroad, so in subsequent articles this week I shall reveal all the secrets I have about the "straight line." When You Trade Your Car-

Ford owners are continually being approached by automobile salesmen who wish to "accept" Fords as part payment on more expensive cars.

It is perfectly logical that automobile dealers everywhere should be eager to trade with Ford owners. The Ford is the most popular automobile in the world. No other used car is so easy to sell as a used Ford - because everyone has confidence in Ford quality. And it is not expensive to re-condition, since Ford replacement parts are lowest in price.

Most automobiles carry greater discounts to dealers than the Ford - another reason why other dealers may offer the Ford owner a larger trade-in allowance.

But when you come to buy a new car, bear these facts in mind:

The amount of the trade-in allowance you can get is not the most important thing for you to consider. The big thing is the difference you have to pay. And remember, that the higher priced car will not be so easy to dispose of when you come to trade it in.

If you wish to trade your Ford for a new automobile, stick to the car that you know to be dependable, useful and economical. Go to your Ford dealer!

He will give you a fair and liberal allowance for your present Ford and will gladly arrange payment of the balance to suit your convenience.

When the deal is over, and you have your new and improved Ford, you will have the satisfaction of knowing positively that you took advantage of the greatest automobile value the world has ever seen — and saved a lot of money, too.
